

A REFERRAL PARTNER FOR ACCOUNTANTS, WEALTH MANAGERS, IFAS & GROWTH CONSULTANTS

Most lawyers draft for today. We draft for what comes next.

A founder-led legal partner for the founders and owner-managers your firm already looks after — commercial, corporate, disputes, property and intellectual property. **Litigation-informed advice, in plain English** — and we run our thinking past you at every stage. We're here for the long-term relationship, not the transaction.

THE JURISDICTION WE KNOW

One legal system, known inside out — no overreach, no guesswork.

Tech-led

BUILT IN-HOUSE

Proprietary tools built by founder Vanessa cut the admin, so we focus on the work.

01

Senior lawyers oversee

Every matter is overseen by a senior lawyer — the people who know the law do the thinking.

03

We know you by name

We learn you and your clients as people — names, goals and the story behind the business.

05

In it for the long term

Here for the relationship, not the transaction. Good advice now earns the next introduction.

07

Joined-up thinking

Property, business, contracts, disputes and IP under one roof, so one fix never quietly breaks another.

02

One named point of contact

You and your client deal with the same person throughout — never passed around a machine.

04

There for a quick question

Run things past us any time. No clock-watching, no hedged non-answers — a straight, considered view.

06

People, not a cash cow

Your clients are human beings who happen to run a business. We treat them that way.

08

Clear, fair fees

Fixed fees where they help. Honest answers, no jargon, no expensive surprises.

Run it past us — that's what partners are for. **We'd rather be trusted than transactional.**

Try us with one matter.
